Hello,

The Pre-RD has come completed maintenance at gate RM 11 (AR-A31 through AR-A34/ downtown reach) and is currently stationed at array AR-A30 (downtown reach). The crew has been conscious of cable hazards (per H&S concerns Tuesday 1/15) and is practicing "good house keeping" by coiling ropes and cables in small piles on deck. Included is a photo of the crew retrieving AR-A33 and preparing the receiver for deployment.

Jonni
